This poster illustrates the genealogy of 711 firms and institutions in the Puget Sound region. Data was gathered through an online survey of technology firms in 2007. The poster also includes firms from various listing such as the Puget Sound Business Journal's 2006 Book of Lists, Washington Technology's gaming cluster list etc. The research is part of a Virginia Tech project that examines the emergence of high-tech regions. For more information about the project, please visit: http://www.vcu.vt.edu/pub/research/knowledge_regions.html Send suggested updates to the poster to: info@washingtontechnology.org
